1.1.1 **Civil Aviation;**

1.1.2 Scheduled and non-scheduled airline operations, including passenger, freight, Sub-Sector Code and general aviation;

1.1.3 Aircraft maintenance, including engine and component overhauls and spare parts;

1.1.4 Airline Service Providers (as defined in Annexure B);

1.2 This Sub-Sector Code will have an impact on other sectors of the economy that are not aviation specific, for example, general services such as catering, retail and other services. The empowerment requirements for non South African domiciled airlines differ to those for Aviation in general and are captured in the Foreign Owned Airlines B-BBEE Scorecard.

2. VISION

2.1 **Overarching Vision**

2.1.1 The overarching vision of this sub-sector is to continually develop and maintain a world-class industry that adheres to international safety standards and delivers quality and affordable services to all our customers. Stakeholders seek to develop an industry that grows in size, contributes towards the economic and social growth of our country and facilitates the economic viability of the region, and substantially increases black participation in business entities throughout the industry value chain. This is directed at pursuing a growth strategy that prioritises the retention and creation of quality jobs.

2.1.2 To make this vision a reality will require a strategy to increase access to skills development, training, investment in capacity development, capital and economic opportunities. This will require that all stakeholders develop existing black employees and recruit as Stakeholders as improve the skills of new black people into the industry. This includes an increase of skills (for new and existing employees) to best-practice international levels, while creating a supportive culture for their talents to thrive. It will also require that all stakeholders facilitate the creation of new black entrepreneurs who can participate in economic opportunities throughout the aviation industry value chain and other sectors of the economy.

AVIATION SUB-SECTOR CODE FOR BBEE

- 2.1.3 The signatories to this document believe that each company in South Africa should embrace B-BBEE, recognising that it is a constitutional and economic imperative to secure a prosperous future for all our country's citizens and therefore act as a catalyst for economic growth. Accordingly, Stakeholders commit to communicating the contents of this Sub-Sector Code to every business entity within the industry to facilitate maximum participation by all stakeholders.
- 2.1.4 Accordingly, all Private Sector Stakeholders committing themselves to this Sub-Sector Code agree to have their B-BBEE achievements measured against the indicators in the scorecard and verified by an independent B-BBEE verification agency/company that is accredited by the South African National Accreditation System (SANAS) on behalf of the Department of Trade and Industry (DTI). The B-BBEE achievements of Public Sector Organisations is measured, monitored and rated in a separate process. Independent B-BBEE rating companies will rate the suppliers of public sector organisations that do not have such capacity, using the same criteria. The independent B-BBEE verification will go a long way towards eliminating fronting in the industry.
- 2.2 Government undertakings (to achieve the vision)**

As such, government policies will be one of the most important factors that contribute towards growth in the industry. Accordingly, government will commit to:
- 2.2.1.1 Pursuing policies that will contribute to economic growth, especially foreign trade and tourism, which impact on the growth of the industry.
- 2.2.1.2 Develop structures that will ensure inter-governmental co-ordination between government departments to align their programmes with the Transport and Aviation Sector B-BBEE Sub-Sector Code processes. Examples of cross-cutting issues that require interventions across government departments and agencies include:

- 2.2.1.2.2 The current shortage of engineers and artisans across all disciplines;
- 2.2.1.2.3 The industrial strategy to develop the country's aerospace components manufacturing industry;
- 2.2.1.2.4 Increasing awareness over the transport sector about available government investment incentives; and
- 2.2.1.2.5 Monitoring of stakeholder achievements against the indicators in the Scorecard, together with other stakeholders in the proposed Transport Sector B-BBEE Charter Council.

- 2.2.1.5 Reviewing the current policy of limiting foreign ownership in SA Domiciled Airlines (in line with current policy) in order to facilitate increased investment and job creation in the industry.
- 2.2.1.6 Designing an overall framework that will provide that State Owned Enterprises (SOEs) bind foreign suppliers of technology-intensive products and services to a set of B-BBEE obligations, including ownership, skills development and enterprise development. This will require an extension of the offset principle currently used in defence and commercial contracts.
